

## PROJECT PROFILE

*IMO & Coast Guard approved flooring used to replace tile & sheet vinyl in Transocean Deepwater Pathfinder laundry & medic areas*

### CUSTOMER

**Transocean - Deepwater Pathfinder**  
*Gulf of Mexico*

### PROJECT TEAM

**PolySpec® Construction Services, Inc.**  
*Houston, Texas*

### INDUSTRY

**Maritime - Drillship**

### PROJECT OVERVIEW

After successfully completing flooring & living quarters upgrades on several Transocean rigs - and the drillship Discoverer Spirit, Polyspec Construction Services was again selected by Transocean to perform IMO repairs on Deepwater Pathfinder.

- Project size: 800 SF
- Project specs: remove and replace existing floor coverings and underlayment that failed due to moisture intrusion
- Existing floor finishes: ceramic tile and sheet vinyl
- Areas upgraded: laundry room and medic area

### KEY CONSIDERATIONS

**Maintenance/Safety:** Transocean needed to upgrade to a flooring system that would minimize future moisture intrusion and therefore provide a longer life span.

**IMO Approvals:** The new flooring system needed to be IMO and U.S. Coast Guard approved.

**Project Timeline:** This project needed to be completed in the least amount of time possible since the laundry room would be shut down during the flooring upgrade.

**Construction Management:** Transocean preferred a turnkey upgrade service for the complete removal and installation of flooring in the specified areas. PolySpec Construction Services partnered with Stallion Offshore to provide a temporary laundry unit.

### SYSTEM PRODUCTS

- **PolySpec® IMO Waterproofing Membrane**  
IMO Approved Waterproofing Membrane
- **PolySpec® FLEX IMO**  
IMO Approved Flexible Decorative Chip Seamless Floor
